INVESTMENT OBJECTIVE AND STRATEGY

The Investor Fund is a USD-denominated equity Unit Investment Trust Fund structured as a feeder fund and aims to provide market returns from a representative portfolio of stocks that comprise the US Equity Market by investing at least 90% of its assets in the iSHARES CORE S&P 500 ETF. The Fund's benchmark is the S&P 500 TR 4 JAN 1988 (SPTR Index).

CLIENT SUITABILITY

A client profiling process is performed prior to participating in the Fund to guide the prospective investor if the Fund is suited to his/her investment objectives and risk tolerance. Clients are encouraged to update the resulting profile every three (3) years or if there's any change in his/her personal/financial circumstances. Before deciding to invest, clients are advised to read the Declaration of Trust/Plan Rules of the Fund, which may be obtained from the Trustee, or seek an independent/professional opinion when necessary.

The METRO\$ US EQUITY FEEDER FUND

(formerly Metro\$ S&P 500 Feeder Fund) is suitable only for investors who:

- Have an Aggressive profile.
- Want capital appreciation over the long-term by primarily investing in iSHARES CORE S&P 500 ETF
- Recommended investment horizon is at least five (5) years
- Participation in the Fund shall be open to Filipino individuals, resident and non-resident aliens and corporate accounts.

KEY RISKS AND RISK MANAGEMENT

You should not invest in this Fund if you do not understand or are not comfortable with the accompanying risks.

Market/Price Risk:	The possibility for an investor to experience losses due to changes in the market prices of stocks/equities. It refers to the portfolio's exposure to marked-to-market valuation due to market price fluctuations of the stocks/equities.
Liquidity Risk:	The possibility for an investor to experience losses due to the inability to sell or convert assets into cash immediately or in instances where conversion to cash is possible but at a price that could result in a loss. This may be caused by low trading volume due to different reasons such as securities with small or few outstanding issues, absence of buyers and/or sellers (limited buy/sell activity) or underdeveloped capital market.
Credit Risk / Default Risk:	The possibility for an investor to experience losses due to a borrower's failure to pay principal and/or interest in a timely manner on instruments such as bonds, loans, or other forms of fixed income security which the borrower issued. This inability of the borrower or counterparty to make good on its financial obligations may have resulted from adverse changes in its financial condition thus, lowering credit quality of the security, and consequently lowering the price (market/price risk) which contributes to the difficulty in selling such security.
Foreign Exchange Risk:	The possibility for an investor to experience losses due to fluctuations in foreign exchange rates. The exchange rates depend upon a variety of global and local factors, e.g. interest rates, economic performance, and political developments.
Country Risk:	The possibility for an investor to experience losses arising from investments in securities issued by/in foreign countries due to the political, economic and social structures of these countries. There are risks in foreign investments due to the possible internal and external conflicts, currency devaluations, foreign ownership limitations and tax increases of the foreign country involved which are difficult to predict but must be taken into account in making such investments.
Index Tracking Risk:	The possibility for the Fund not being able to achieve a level of return that closely mirrors the index being tracked due to operational and fund management expenses.
Other Risks:	Your participation in the UITFs may be further exposed to the risk of any actual or potential conflicts of interest in the handling of in-house or related party transactions by Metrobank. These transactions may include own-bank deposits; purchase of own-institution or affiliate obligations (stocks, mortgages); purchase of assets from or sales to own institution, directors, officers, subsidiaries, affiliates or other related interests/parties; or purchases or sales between fiduciary/managed accounts.

The Fund invests only in high-credit quality assets which are evaluated using a rigorous internal scoring model required under the Trustee's accreditation process and BSP regulations. Internal risk limits and position limits together with regulatory exposure limits are monitored, reviewed and strictly adhered to on a daily basis. The Fund may also use financial derivatives solely for hedging risk exposures.

THE UIT FUND IS NOT A DEPOSIT AND IS NOT INSURED BY THE PHILIPPINE DEPOSIT INSURANCE CORPORATION (PDIC).

RETURNS CANNOT BE GUARANTEED AND HISTORICAL NAVPU IS FOR ILLUSTRATION OF NAVPU MOVEMENTS/FLUCTUATIONS ONLY.

WHEN REDEEMING, THE PROCEEDS MAY BE WORTH LESS THAN THE ORIGINAL INVESTMENT AND ANY LOSSES WILL BE SOLELY FOR THE ACCOUNT OF THE CLIENT.

THE TRUSTEE IS NOT LIABLE FOR ANY LOSS UNLESS UPON WILLFUL DEFAULT, BAD FAITH OR GROSS NEGLIGENCE.

FUND PERFORMANCE AND STATISTICS as of January 31, 2020

(Purely for reference purposes and is not a guarantee of future results)

NAVPU GRAPH

NAVPU OVER THE PAST 12 MONTHS

Highest	1.239596
Lowest	1.004890

STATISTICS OF THE TARGET FUND

Volatility, Past 1 Year (in %) ²	12.22%
Sharpe Ratio ³	1.59
Information Ratio ⁴	-3.04
Tracking Error ⁵	1.26%

² Volatility measures the degree to which the Fund fluctuates vis-à-vis its average return over a period of time. The lower the number, the more stable the Fund's return is relative to its average return over time.

³ Sharpe Ratio is used to characterize how well the return of a Fund compensates the investor for the level of risk taken. The higher the number, the better.

⁴ Information Ratio measures reward-to-risk efficiency of the portfolio relative to the benchmark. The higher the number, the higher the reward per unit of risk.

⁵ Tracking Error measures the deviation between the Fund's return and benchmark return over the past year. The lower the number, the more aligned the Fund's return is with the benchmark.

Unit Investment Trust Funds

INVESTMENT POLICY

A. The Fund may be invested and reinvested in the following instruments:

- USD-denominated units/shares in collective investment schemes subject to the conditions under BSP Circular 767
- USD-denominated deposits
- Other traded money market instruments
- Other USD-denominated Investments allowed under BSP regulations

B. The Investor Fund may invest a minimum of 90% of its fund in the Target Fund and a maximum of 10% in cash, deposits and other money market instruments. The investment of the Investor Fund in any Target Fund shall not exceed 10% of the Total Net Asset Value of the Target Fund.

OUTLOOK AND STRATEGY

Global bond markets outperformed equity markets as the outbreak of the Novel Coronavirus drove fear across regions on estimates of a short-term yet significant impact on global market rattled investors. Estimates show that China's GDP will print at 4.5% YoY in the first quarter (vs. 6% in the fourth quarter of 2019; 1.4% below forecast). With that, market players favored safe haven assets as the 10Y UST closed at 1.51% (-41 bps MoM).

US shares behaved mostly in response to 4th quarter 2019 earnings reports. Exxon Mobil Corp. missed market estimates as earnings came in at 41 cents per share (vs. 43 cents/share consensus; -70% YoY) on the back of declining margins alongside global crude prices. Meanwhile, Apple delivers record sales and profits after demand surged during the last three months of the year; 4Q sales grew 8.0% YoY to \$91.8Bn while net profits soared by 11%. With that, the index remained almost flat at -0.04% MoM as gains brought by Tech stocks were erased by the losses of Energy stocks.
